

Technical Council Award

CIGRE Technical Council Award Nominees

This Award is granted to a few CIGRE Members as a reward for their active participation in the activities of the technical work of the Study Committees.

Every two years, each Study Committee Chair puts forward one name from among members of his/her Study Committee or Working Groups.

These proposals are approved by the Technical Council Chairman.

The distinction was introduced in 1993, and amended in 2014 (frequency brought to two years).

The distinction was exceptionally awarded in 2021 on the occasion of the Virtual Centennial Session celebration.

Récipiendaires du Diplôme CIGRE du Conseil Technique

Cette distinction est accordée à quelques membres du CIGRE pour récompenser leur participation active aux activités du travail technique des Comités d'Etude.

Tous les deux ans, chaque président de Comité d'Etude propose un nom parmi les membres de son Comité d'Etudes ou de ses Groupes de Travail.

Ces propositions sont approuvées par le Président du Conseil Technique.

La distinction a été introduite en 1993 et modifiée en 2014 (fréquence portée à deux ans).

Cette distinction a été décernée à titre exceptionnel en 2021 à l'occasion de la célébration de la Session Virtuelle du Centenaire.

Technical Council Award

2021

Study Committee

Recipient's name and country

A1 Rotating electrical machines	Nico SMIT	NZ
A2 Power transformers and reactors	Tim GRADNIK	SI
A3 Transmission and distribution equipment	Martin KRIEDEL	CH
B1 Insulated cables	Geir CLASEN	NO
B2 Overhead lines	Anish ANAND	IN
B3 Substations and electrical installations	Romain MIGNÉ	FR
B4 DC systems and power electronics	Ting AN	CN
B5 Protection and automation	John William WRIGHT	GB
C1 Power system development and economics	Valdson SIMOES DE JESUS	BR
C2 Power system operation and control	Vinay SEWDIEN	NL
C3 Power system environmental performance	Christian CAPELLO	CH
C4 Power system technical performance	David JACOBSON	CA
C5 Electricity markets and regulation	David BOWKER	AU
C6 Active distribution systems and distributed energy resources	Samuel JUPE	GB
D1 Materials and emerging test techniques	Stefan KORNHUBER	DE
D2 Information systems and telecommunication	Victor TAN	AU

Technical Council Award

2020

Study Committee

Recipient's name and country

A1 Rotating electrical machines	Monique KRIEG-WEZELENBURG	NL
A2 Power transformers and reactors	Michel DUVAL	CA
A3 Transmission and distribution equipment	Frank RICHTER	DE
B1 Insulated cables	Alain GILLE	BE
B2 Overhead lines	Pierre VAN DYKE	CA
B3 Substations and electrical installations	Mark OSBORNE	GB
B4 DC systems and power electronics	Carsten BARTZSCH	DE
B5 Protection and automation	Massimo PETRINI	IT
C1 Power system development and economics	Antonio ILICETO	IT
C2 Power system operation and control	Renuka CHATTERJEE	US
C3 Power system environmental performance	Siv Sannem INDERBERG	NO
C4 Power system technical performance	Claus Leth BAK	DK
C5 Electricity markets and regulation	Alain TACCOEN	FR
C6 Active distribution systems and distributed energy resources	Zhao MA	GB
D1 Materials and emerging test techniques	Claus NEUMANN	DE
D2 Information systems and telecommunication	Giovanna DONDOSSOLA	IT

Technical Council Award

2018

Study Committee

Recipient's name and country

A1 Rotating electrical machines	Hideyuki SHIMADA	JP
A2 Power transformers and reactors	Marie-Claude LESSARD	CA
A3 Transmission and distribution equipment	Harley WILSON	US
B1 Insulated cables	Marc JEROENSE	SE
B2 Overhead lines	Javier IGLESIAS	ES
B3 Substations and electrical installations	Mark McVEY	US
B4 DC systems and power electronics	Carl BARKER	GB
B5 Protection and automation	Goda NUDELMAN	RU
C1 Power system development and economics	Yury TSIMBERG	CA
C2 Power system operation and control	Jens JACOBS	DE
C3 Power system environmental performance	Vincent DU FOUR	BE
C4 Power system technical performance	Alberto BORGHETTI	IT
C5 Electricity markets and regulation	Kankar BHATTACHARYA	CA
C6 Active distribution systems and distributed energy resources	Birgitte BAK-JENSEN	DK
D1 Materials and emerging test techniques	Shigemitsu OKABE	JP
D2 Information systems and telecommunication	Marcelo COSTA de ARAUJO	BR

Technical Council Award

2016

Study Committee

Recipient's name and country

A1 Rotating electrical machines	Juergen WEIDNER	DE
A2 Power transformers and reactors	Carlos Julio DUPONT	BR
A3 Transmission and distribution equipment	Christian FRANCK	CH
B1 Insulated cables	Frank de WILD	NL
B2 Overhead lines	Robert LAKE	NZ
B3 Substations and electrical installations	Michael MACKEY	IE
B4 DC systems and power electronics	John McNICHOL	CA
B5 Protection and automation	Peter CROSSLEY	GB
C1 Power system development and economics	Alan CROES	NL
C3 Power system environmental performance	Mercedez VAZQUEZ	ES
C4 Power system technical performance	Alain XEMARD	FR
C5 Electricity markets and regulation	Gerard DOORMAN	NO
D1 Materials and emerging test techniques	Orsino BORGES Filho	BR
D2 Information systems and telecommunication	Herwig KLIMA	AT

Technical Council Award

2014

15 Materials for electrotechnology	Masayuki IEDA	JP
	Jarle SLETBAK	NO
21 HV insulated cables	Z. IWATA	JP
22 Overhead lines	Jean-Louis LAPEYRE	FR
	Burkhard SCHMIDT	DE
23 Substations	Shunichi ITO	JP
	Adrian N. ZOMERS	NL
33 Power system insulation co-ordination	Jostein HUSE	NO
	K.H. WECK	DE
34 Power system protection and local control	Arun G. PHADKE	US
36 Power system electromagnetic compatibility	Bruno JACQUET	BE
	L. SAGAN	US
37 Power system planning and development	Eric M. EUNSON	GB
	Raymond M. MALISZEWSKI	US
38 Power system analysis and techniques	Nils FLATABO	NO
39 Power system operation and control	Kurt LINDSTROM	FI

Technical Council Award

1994

Study Committee

Recipient's name and country

11 Rotating machines	Jean-Michel GUILLARD	FR
	Hans KOGLEK	AT
12 Transformers	Jacques AUBIN	CA
13 Switching equipment	Giorgio CATENACCI	IT
14 HVDC links and AC power electronic equipment	C. KRISHNAYYA	CA
	Marcio SZECHTMAN	BR
15 Materials for electrotechnology	Ronald E. JAMES	AT
	Pierre JAY	FR
	Hermann C. KÄRNER	DE
21 HV insulated cables	F. KREUGER	NL
22 Overhead lines	Friedrich KIESSLING	DE
23 Substations	David LIGHTLE	GB
33 Power system insulation co-ordination	Jarmo ELOVAARA	FI
	Andrew R. HILEMAN	US
34 Power system protection and local control	J. W. CHADWICK Jr.	US
35 Power system communication and telecontrol	Erik ANDERSEN	DK
	Georges de MONTRAVEL	FR
36 Power system electromagnetic compatibility	P. MEYNAUD	FR
37 Power system planning and development	Victor BERLEMONT	BE
38 Power system analysis and techniques	Takashi HAYASHI	JP
39 Power system operation and control	Jovard SVOEN	NO

Technical Council Award

1993

Study Committee

Recipient's name and country

11 Rotating machines	P.H. CONCEICAO	GB
	Victor Alan MOORE	CA
12 Transformers	Tobias HURTER	BR
	G. LE ROY	FR
	Gustav PREININGER	AT
13 Switching equipment	E. REIPLINGER	DE
	S. BERNERYD	SE
	Allan GREENWOOD	US
14 HVDC links and AC power electronic equipment	D. Jack CHRISTOFERSEN	US
	Ake EKSTRÖM	SE
	Carlos Augusto PEIXOTO de OLIVEIRA	BR
15 Materials for electrotechnology	D. ZANOBETTI	IT
21 HV insulated cables	C.A. ARKELL	GB
	Reinhard G. SCHROTH	DE
22 Overhead lines	Walter F. BUECKNER	DE
	G. ORAWSKI	GB
23 Substations	Fritz SCHERER	CH
33 Power system insulation co-ordination	Kurt FESER	DE
34 Power system protection and local control	J. GOOSENS	BE
35 Power system communication and telecontrol	A. BARTLETT	GB
	Jan HEGGE	NO
36 Power system electromagnetic compatibility	Claude GARY	FR
	B.J. MADDOCK	GB
37 Power system planning and development	D. BRANCART	BE
	Charles L. RUDASILL Jr	US
38 Power system analysis and techniques	Manfred ERCHE	DE
	T. MCGILLIS	CA
	W.A. MITTELSTADT	US
39 Power system operation and control	Hans GLAVITSCH	CH
